Re: POP 8 & 9 Analytical Reports
SCP Carlstadt Site

Dear Mr. Basso:

Enclosed are the analytical data packages from ETC for the soil and water samples collected during implementation of POPs 8&9. The packages have been modified/revised where appropriate based on Trillium's comments contained in their draft validation report.

Trillium is in the process of reviewing the modified/revised data packages and finalizing their validation report. This report is expected to be available in mid-to-late September.

Please call if you have any questions.

Very truly yours,

LANGAN ENVIRONMENTAL SERVICES, INC.
